

Thousand Foot Krutch "Fire It Up"

Visit "[Fire It Up](#)" on [MotoLyrics.com](#)

I've got a bad case of turning it up
It's getting cold in here so fire it up
I've got a bad case of turning it up
It's getting cold in here so somebody fire it up
Come on and fire it up

I'm in love with the feeling of pressure to the ceiling
We come with intention to face my opposition
Get raw when it's time to lay it on the line
To the walls where we're taking it

Let Your light shine like
Let Your light shine like
Let Your light shine

I've got a bad case of turning it up
It's getting cold in here so fire it up
I've got a bad case of turning it up
It's getting cold in here so somebody fire it up
Come on and fire it up

Take it higher, take it higher
'Til the roof is on fire
Take it higher, take it higher
Let's burn it up

Take it higher, take it higher
'Til the roof is on fire
Take it higher, take it higher
Let's burn it up

We throw down when it's time for the action
Make it happen and the sound that you're feeling
Like lead might just happen when you're torn
You might not get a warning or a sign
To the walls where we're taking it

Let Your light shine like
Let Your light shine like
Let Your light shine

I've got a bad case of turning it up

It's getting cold in here so fire it up
I've got a bad case of turning it up
It's getting cold in here so somebody fire it up
Come on and fire it up

Come on and fire it up
Come on and fire it up
