

Thousand Foot Krutch "Go"

Visit "[Go](#)" on MotoLyrics.com

I know the way you feel
The way you view incompetence
We have to remedy
Our extreme lack of confidence

I love the way you move
You cover me like oxygen
Touched by your innocence
We come to you with hearts open

I love the way you are
The way you move, the way you speak
And I like the way you heal
The hole inside, that's incomplete

I know the way you feel
The way you view incompetence
And I have to remedy and make this up again
And when I feel this way, it's hard not to let

Go, when I feel, like I feel, the way I feel
Go, I'm into you, just help me find a way this time
Go, when I feel, like I feel, the way I feel
Go, let it grow, wind me up and let me go

I love the way you twist
The way you're so mysterious
And we'll have to stay in line
To let you know we're serious

I know the way you've seen
The way your hands have covered me
And touched by your gratitude
I'll break the skin and come undone

I love the way you are
The way you move, the way you speak
And I like the way you heal
The hole inside, that's incomplete

I know the way you feel
The way you view incompetence

And I have to remedy and make this up again
And when I feel this way, it's hard not to let

Go, when I feel, like I feel, the way I feel
Go, I'm into you, just help me find a way this time
Go, when I feel, like I feel, the way I feel
Go, let it grow, wind me up and let me go

Stand up, the time is now
Look at the faces in the crowd
Do you want to just be one?
Will you choose to overcome?

Stretch, take off your hurt
Leave your anger in the dirt
No more feelings, let it work
Let the growing take over

Stand, the time is now
Look at the faces in the crowd
Do you want to just be one?
Will you choose to overcome?

Stretch, take off your hurt
Leave your anger in the dirt
No more feelings, let it work
Let the growing take over

Go, when I feel, like I feel, the way I feel
Go, I'm into you, just help me find a way this time
Go, when I feel, like I feel, the way I feel
Go, let it grow, wind me up and let me go

Go, yeah, go, go, go
Go, when I feel, the way I feel
I wanna go, go, go, go, yeah
When I feel the way, I feel the way, I feel, let me go
