Uh...

I could be nice but don't test me

I can get wicked!

I get wicked, wicked

I get wicked

There's no escaping it

Wicked!

You want to kick it

Watch me get wicked

Step up and get it

Cause I get wicked

I'm a beast I came to rip this spot up

Stick to cons because the devil wears Prada

We want peace but we can make this rally stop

We don't want to hurt nobody

You can't hang because my nature's nice

And my heart is for the people of the world tonight

If you got a problem with it take it up with life

Because if you try to push me it ain't going to be nice

I get wicked, wicked

I get wicked

There's no escaping it

Wicked!

You want to kick it

Watch me get wicked

Step up and get it

Cause I get wicked

I am not afraid of this mountain in my way

You can push me to my knees I believe

And I am now awake

Uncontrolled and not ashamed

When it washes over me I feel free

P.S. don't play me like a 3DS

These cats can't see us they checking the wrong mirrors

Cavaliers, don't mistake kindness for weakness

They never wanted to hear us blow speakers

Spitting the trinity hook, line, and sequence
In your brain like a G6 no secrets
My fate is my life it's rolling the dice
If you try to push me it ain't going to be nice

I get wicked, wicked
I get wicked
There's no escaping it
Wicked!
You want to kick it
Watch me get wicked
Step up and get it
Cause I get wicked

I am not afraid of this mountain in my way
You can push me to my knees I believe
And I am now awake
Uncontrolled and not ashamed
When it washes over me I feel free

Go!

Uh...
I could be nice but don't test me

I get wicked, wicked
I get wicked
There's no escaping it
Wicked!
You want to kick it
Watch me get wicked
Step up and get it
Cause I get wicked

I get wicked when you come against me
So could you stop trying to push me around
Let's kick if you really want to touch fire
Come get it step up, I'll bring you down
Step up and get it cause I get wicked
