Everyday I get a little closer
And everything I'm made of starts to melt away
I see the signs but I can't quite make the words out
All I want is to be near You but I'll push You away

I just wanna get away
But I hurt You everyday
The part that hurts the most

The part that hurts the most is me, the most is You
It's everything I do without You
The part that hurts the most is me, the most is You
It's everything I do without You

Every chance I get I'm movin' closer
I know I'm not supposed to but I can't break away
I see the signs but I can't quite make the words out
All I want is to be near You but I'll push You away

I just wanna get away
But I hurt You everyday
The part that hurts the most

The part that hurts the most is me, the most is You
It's everything I do without You
The part that hurts the most is me, the most is You
It's everything I do without You

I hate talkin' about it
Tried to lose it but instead I found it
I just want You to know I couldn't love anyone more

No, stay away from me
Get up, I'm tryin' to walk away, You just won't let up
No, stay away from me
Get up, I'm tryin' to walk away, You just won't let up

No, stay away from me
Get up, I'm tryin' to walk away, You just won't let up
No, stay away from me
Get up, I'm tryin' to walk away, You just won't let up

The part that hurts the most is me, the most is You
It's everything I do without You
The part that hurts the most is me, the most is You
It's everything I do without You

The part that hurts the most is me, the most is You
It's everything I do without You
The part that hurts the most is me, the most is You
It's everything I do without You
