Shut down

Fallin over once again

Dropped out

Hand extended for a friend

Looked up

And there's you lookin in

And who cares

Cause no ones lookin anyway

Impaired

My vision lost it yesterday

And that's fine

Don't mind feelin that way

Just don't let me lie here by my self

Let's go

I know I'm faded

Outta sight

Tonight

Just stay with me, I don't wanna go home

Outta sight

Tonight

Just rescue me

I don't wanna go

Rewind and take me back to start again

Ducked out cause paranoia's settin in

But I'm with you until the end

One ride

We'll drive around the parkin lot

No pride

Cause I don't seem to care a lot

No cash

This change is all I got

Just don't let me ride here by myself now

Let's go

I know I'm faded

Outta sight

Tonight

Just stay with me, I don't wanna go home

All right

Tonight

Just rescue me, I don't wanna go

So set still

One last thrill

Just stay with me and we'll never go home

Outta sight

Tonight

Just rescue me and we'll never go home

Yeah we'll never go home Yeah

I don't wanna go

One more ride

One time once again

Just climb in

I'm still climbing yeah

One more ride

One time once again

Just climb in

I'm still climbing

Outta sight

Tonight

Just stay with me, I don't wanna go home

All right

Tonight

Just rescue me, I don't wanna go

So set still

One last thrill

Just stay with me and we'll never go home

Outta sight

Tonight

So rescue me and we'll never go home
