"Stop To Think"

Visit "[Stop To Think](#)" on MotoLyrics.com

I've got this feelin' and I know that something just ain't
right

There's something wrong with me, can't eat, can't
think, can't sleep at night

Maybe the empire's falling down

I hope that I won't be around

Stop to think

I've tried to fight, I think I'm right

But who the fuck's to say

I've heard your views on the evening news

They're played out every fucking day

I think the end is coming down

I hope that I won't be around

Stop to think

I stop to think that maybe everything's alright

And maybe that's a waste of time

Be all that you can be, there's nothing left to see

Well now that's not good enough for me

Stop to think
