

Threat Signal "Rational Eyes"

Visit "[Rational Eyes](#)" on MotoLyrics.com

Pure resistance unborn to the fraudulent world
Face revision the spawn of hate
Forgiveness is distant now
Rising against the origin
I am only one
Scanning the surface with rational eyes
Driving deeper well reach our demise
This cannot go on

I can see this world is all alone
I wont be a victim
I can feel the end of all I've known

Our world will fall
In the end man will rise and kill all
I am understanding why, all these miles away
I'm not the enemy
