(J. Watson)

You better find find yourself someone to love.

Life's so short, sweet and groovin',

And brother I ain't foolin'.

You better find someone to love.

This better be a right love,

Can't be a fly by night love.

That kind of love only last temporary.

You gotta have a girl who needs you;

Looking good to please you.

Looking good all day;

In your corner all the way.

You better find find your self someone to love.

Birds and the bees do it,

Fish in the sea do it.

Baby get hep to it'

Find someone to love.

I'm in love but I know it,

I'm in love but I show it.

I'm the king of the lover's school.

You gotta have a girl who needs you;

Looking good to please you.

Looking good all day;

In your corner all the way.

You better find find your self someone to love.

You better find find your self someone to love.
