You ride on the swing in and out of the bars
Capturing moments of life in a jar
Playing with children and acting as stars
Guiding your vision to heaven
And heaven is in your mind

Take extra care not to lose, what you feel?
The apple you're eating is simple and real
So, water the flowers that grow at you heel?
Guiding your vision to heaven
And heaven is in your mind

You ride on the swing in and out of the bars
Capturing moments of life in a jar
Playing with children and acting as stars
Guiding your vision to heaven
And heaven is in your mind

Take extra care not to lose, what you feel?
The apple you're eating is simple and real
So, water the flowers that grow at you heel?
Guiding your vision to heaven
And heaven is in your mind
