Ooh, I love you baby sometimes ain't too much
Lord, I got to have ya, love to feel your touch
I had you in the summertime, I loved you in the fall
I got to take you home with me, I got to make you ball
Do you feel all right, do you feel all right

You make us feel all right, you make us feel all right
You make us feel all right, you make us feel all right
Feel it baby, feel it
Feel it baby, feel it
You wanna clap your hands
You wanna clap your hands
I got to feel it
I got to feel it
Give us some of that
Give us some of that
You make us feel all right, you make us feel all right
You make us feel all right, you make us feel all right
