[Layzie Bone]

Yeah yeah

Gangstas, thugsters, hustlers and pimps

Scramblin tryin to get it right, yeah we tryin to live our  
life

Gamblin, robberies, murderers and thieves

Yeah we tryin to get it right, prayin up under the city  
lights

Gangstas, thugsters, hustlers and pimps

Scramblin tryin to get it right, yeah we tryin to live our  
life

Gamblin, robberies, murderers and thieves

Yeah we tryin to get it right, prayin up under the city  
lights

It really is safer during the day, when the kids is out to  
play

But when the street lights come on you better be takin  
that ass home

Doin our dirt up under the sun, where the moonlight is  
dimmer

January down 'til December through the spring, fall and  
winter

You learn to survive, in the ghetto, better take than get  
took

Sellin that yay up on the corner nigga better break then  
get booked

Look, po-po is on that ass, jackals is on that ass

It's the crafty makin the laws but it's the niggaz you got  
to blast

Cause they cutthroat, and sheisty!

One-eighty-seven the lesson the niggaz that's run they  
might be

The only way a nigga make it out of the ghetto and  
that's real

Combat on contact, nigga kill or be killed - sweat fo'  
God

Thug life is serious, my heart is near and dear to this

So many punks here understandin this, I wanna smoke  
the cannibus

Can't forget the hood, cause they represent the

struggle right  
Money, women, power, respect; that's just what  
soldiers like

[Chorus: Thin C.]

You can tell by the way that I get this dough  
And I crack my toes I'm a hustler babe  
Tell by the way that I talk my talk  
And I walk my walk I'm thuggin baby  
I, I, I, I'm, sayin alive - stayin alive  
I, I, I, I'm, gettin mine - mean green

[Layzie Bone]

Green light Caddy coupe, stackin like it's Mercedes  
Benz  
Malibu's and heavy Chevy's, every day we stackin ends  
Some niggaz take on the bridge while other niggaz  
they fumble wit it  
Make it out and start a business while other niggaz they  
crumble wit it  
Need work? Well come and get it, best believe I got  
mine  
I represent for the O.G.'s and the hustlers that got time  
City sets the attention from one jumper to the next  
jumper  
Land breathe easy, we always ready to rumble  
Ain't it a wonder, how I keep from goin under  
And they tell us we should shoot for the stars (that's  
some bullshit)  
But it ain't no wonder, when you feel the pain and  
thunder  
Motherfuckers'll rather shoot up your car  
(motherfucker!)  
See by the church it's a liquor sto', by the liquor sto' it's  
a crackhouse  
All in the pot of gumbo, now you know what we rap  
'bout  
Ain't no vaccine for crack fiends, just pipe dreams ain't  
no rice  
Do yo' thing it's yo' life, I'ma ball up under the city  
lights

[Chorus]

[Layzie Bone]

Some of these niggaz I grew up with is niggaz that I  
don't fuck with  
I done came up and they ain't so niggaz be on some  
dumb shit  
They hatin me and my hardwork, my territory is  
standard

I'm connected down in A-T-L, from Tennessee to  
Kansas  
Hell yeah I planned this, I was tryin to get off the block  
Slang rap or slang rocks, keep it movin or get popped  
Non-stop, was my hustle mode, constantly grinding  
Get it so much I'm on the nuts I guess I'm just, grimy  
Find me, showin love, dippin with Mississippi thugs  
Look at me I'm grippin my nuts, get it if you got the  
guts  
Code to the streets say, fuck a "he say she say"  
Do a nigga face to face from the suburbs to the PJ's  
Never give no leeway, nigga better believe me  
I always had to put in work, shit ain't never been easy  
I guess I'm livin just to love for the city  
And if you want me nigga come and get me, you feel  
me?

[Chorus]

[Layzie Bone]  
Gangstas, thugsters, hustlers and pimps  
Scramblin tryin to get it right, yeah we tryin to live our  
life  
Gamblin, robberies, murderers and thieves  
Yeah we tryin to get it right, prayin up under the city  
lights
