i'm the biggest Lindsay Lohan fan next to her mom  
got her posters on my wall, think about her all of the  
time

it's like i wake up in the morning wood in my bed  
roll over half praying its her sayin "wake up sleepy  
head"

it never is though, ok mom i'm getting up  
oh mom! can i have my OJ in my Hilary Duff cup?  
grab a shirt out the drawer, a pair a pants from the  
floor

a song in my heart thumping for all the girls i adore  
mi amor es las chicas mas mas menor  
i got my seventeen subscription so i know what's in  
store

it's on my bathroom floor, next to YM and Stuff  
one day i'll get playboy and wait for Hilary duffs muff  
but that's a few days away, more like 400 and change  
still not getting it, maybe this will help me explain  
i love Amanda Bynes, i wanna FTS her boobs  
so many young cuties how's a boy to choose

so you're looking at me wondering what's wrong in my  
brain

a 21 year old milktoast-balding-pedo with pit stains  
that's ok call me names, start with never been laid  
saving up for Mary-Kate, Ashley and my wedding day  
i know i haven't met em yet, but its destiny no doubt  
all you fucking freshman at NYU best watch out  
cuz i got the grades, and nailed my GRE  
grad school, your cool, TA's gonna be me  
maybe that won't work out, but Broadway's down the  
street

i'll pop in see Kim Possible as Belle in Beauty and the  
Beast

be like hey Christie, hey you miss me,  
come on out your dressing room baby kiss me  
she'll be like oh hey, who the hell are you  
"i know the Olsen twins" "oh not those two"

yeah i had em, but i want the best  
and miss Carlson Romano you've captured my interest

chances are Wren and i will eventually split  
if you caught the double entendre i definitely intended  
it  
but legs aside, we'll probably one day stop dating  
and i'll go back to my constant masterplan which is  
waiting  
for the right girl, which sadly, isn't Hilary duff  
she's amazing, but 5'4' just ain't tall enough  
and Lacey Chabert actually older than me  
and no matter how hard i try i'm not hard for Avril  
Lavigne  
the skater shit and ties make her look like a dude  
oops, my mistake, Mandy Moore's hair style has got me  
confused  
and Ashlee Simpson's voice on her sister's body'd  
make her a hottie  
but that's living in dream world, sadly, reality's got me

i'm desperate but i'm not looking toward Raven Simone  
unless we're talking Mr. Cooper or the Cosby show  
sexy Alexa Vega caught my eye back in spy kids one  
and watching her grow has well, made me come,  
undone  
speaking but spies got room for Harriet in my life  
Buffy Summers little sister Michelle T be my wife  
Emma Watson's magic put love spell on me  
sorry Harry Potter but Hermiony's mine you'll see  
we're gonna do it on the broom, i'm gonna snatch ya  
snatch  
back in Harry Potter one i put dibs on her ass  
Anne Hathaway's my princess, hope she knights me  
jet to Britain and EO Kiera Knightly nightly  
i get sick when i think about these girls in a few years  
wrinkled 22 year olds, the answer is clear i'm not ready  
for a relationship, but have no fears  
in 09 its sweet 18 for Jamie Lynn spears!
