Oh, this is the start of something good, don't you agree?  
I haven't felt like this in so many moons, you know what I mean?  
And we can build through this destruction  
As we are standing on our feet

So since you want to be with me  
You'll have to follow through  
With every word you say  
And I, all I really want is you  
You to stick around  
I'll see you everyday  
But you have to follow through  
You have to follow through

These reeling emotions they just keep me alive, they keep me in tune  
Oh, look what I'm holding here in my fire, This is for you  
Am I too obvious to preach it  
You're so hypnotic on my heart

So since you want to be with me  
You'll have to follow through  
With every word you say  
And I, all I really want is you  
You to stick around  
I'll see you everyday  
But you have to follow through  
You have to follow through

The words you say to me are unlike anything that's ever been said  
And what you do to me is unlike anything that's ever been  
Am I too obvious to preach it  
You're so hypnotic on my heart

So since you want to be with me  
You'll have to follow through

With every word you say  
And I, all I really want is you  
You to stick around  
I'll see you everyday

So since you want to be with me  
You'll have to follow through  
With every word you say  
And I, all I really want is you  
You to stick around  
I'll see you everyday  
But you have to follow through  
You have to follow through

You're gonna have to follow  
Oh, this is the start of something good, don't you  
agree?
