You, you were the one I saw all the time,  
You, you picked me up every time I was down and  
gone,  
I don't know if I'm doing the right thing,  
I don't know if I'm ready to sing, This song,  
I'm so cold in here, There's no one holding me tight,  
I'm so down in here, But it was me who ended it that  
night,  
I can't remember what was going through my mind,  
I do remember that I wasn't feeling right,  
I could ask for you, But it won't come true,  
I just need to lay my head,  
And remember why, Just tell myself a thousand times,  
Yeah telling myself so many times that what I did was  
right,  
I just need my space to figure out the things in my  
mind,  
Yeah but there's no doubt I've been missing you,  
Missing you in my eyes, there is just stuff in my life I  
can't explain,  
and pictures of people that seem so lame,  
I, I keep listening to the same old song, it couldn't be that  
wrong,  
cuz babe I'm missing you, yeah it was all me,  
but I'm sure I could believe, but it happened,  
I hurt us deep inside, I took what was mine and I made  
a clear line,  
you can see the pain in my face, all I said is I need my  
space,  
yeah I need my space, and all I said is I'm not ready for  
this,  
yeah just not right and ready for this,  
I was just so unprepared, for what you were worth,  
I threw it all away but it could never feel the same way,  
yeah never feel the same way.....
