Come to me, run to me, do and be done with me
Cold, cold, cold
Don't I exist for you, don't I still live for you
Cold, cold, cold

Everything I possess, given with tenderness
Wrapped in a ribbon of glass
Time it may take us but God only knows
How I've paid for those things in the past

Dying is easy, it's living that
Scares me to death, oo yeah
I could be so content
Hearing the sound of your breath, oo yeah

Cold is the color of crystal the snowlight
That falls from the heavenly skies
Catch me and let me dive under
For I want to swim in the pools of your eyes

I want to be with you baby
Slip me inside of your heart
Don't I belong to you baby?
Don't you know that nothing can tear us apart?

Come on now, come on now, come on now
Telling you that I loved you right from the start
But the more I want you the less I get
Ain't that just the way things are

Winter has frozen us, let love take hold of us
Cold, cold, cold
Now we are shivering, blue ice is glittering
Cold, cold, cold

Cold is the colour of crystal the snowlight
That falls from the heavenly skies
Catch me and let me dive under
For I want to swim in the pools of your eyes

Don't you know it?
Cold, cold, cold

Cold, cold, cold
Cold, cold, cold
