Stay by me

And make the moment last

Please take these lips

Even if I have been kissed

A million times

And I don't care if there is no tomorrow

When I could die here in your arms

Even if the stars have made us blind

We're blind we're blind

So blind in love

Sweet darling

Don't you know that we're no different to anyone

We stumble

We falter

But we're no different than anyone

And all the winter snow has melted now

Into a pool of silver water

And we were standing in a thunder cloud

Dark as your hair

Dark as your hair
