How could You see what you see and not totally
Want to discontinue me for all eternity and then some
It bothers me so that I could be so
Completely unaffected when connected to the Holy
One
And so I sit here and stare at this page and wonder
At what age it will become clear to me
So for now I am clueless to how You do this
And how You move this spirit in me

I'm going Your way
Even though I cannot see in front of me
I'm going Your way
Even though I feel lost at sea

How could Your favor be the flavor I savor
When the fruits of my labor are so unfavorable
And old pages are setting the stages for something
outrageous
A man who can save all our souls
And You know and You know

I'm going Your way
Even though I cannot see in front of me
I'm going Your way
Even though I feel lost at sea

Ride the wave, wave goodbye, by the way did I mention
today
That I don't know the way home
So could You take me by the hand and lead me to the
dryer land
So I can finally breathe again instead of sinking like a
stone
And now I will diligently and not religiously but
affectionately come
Before the throne of Your grace in this place and seek
Your face
For all eternity and then some

I'm going Your way

Even though I cannot see in front of me
I'm going Your way
Even though I feel lost at sea
