Now let the day just slip away so the dark night may  
watch over you  
Velvet blue, silent true, it embraces your heart and  
your soul. Nocturne

Never cry, never sigh, you don't have to wonder why  
Always be, always see, come and dream the night  
with me, Nocturne

Have no fear when the night draws near  
and fills you with dreams and desires  
Like a child asleep so warm so deep  
You will find me there waiting for you  
Nocturne

Never cry, never sigh, you don't have to wonder why  
Always be, always see, come and dream the night  
with me, Nocturne

Now the darkness lay, it will give way  
When the dark night delivers the day, Nocturne
