CHORUS:

My Whole Is fallin down

Falling down falling down

My whole world is falling down

I'm losing my baby

You told me that your love for me was true

Said you'd love me your whole life through

But now you're asking me to set you free

You've found somebody you love more than me

Chorus

I miss your lovin' that was so fine

I need it I need it all of the time

For I still love you in the same old way

And I'm losing you a little more every day

Chorus

Chorus to Fade
