Bridge:

Did, did you ever love me?

Did, did you really love me?

Did, did you ever love me, really love me?

My everything you were my world

With you I'll do 'most anything

Just to make you happy, baby

I gave my heart, I gave my time

My faith in you had me so blind

Never saw the heart break coming

Chorus:

Did you ever really love me

You played with my feelings

Really should have let me go.

Did you ever really loved me

You kept me in the darkness

Now I am the last to know.

Bridge

Although she claimed to be my friend

Her mind was on another thing.

It can't be like so deepless.

She knew I was in love with you

Couldn't understand how she could do

What she did was smile sweetly.

It was bad enough to be deceived by you

But also by a friend

whose friendship I thought was true.

Chorus

How could life be so cruel

What you did was so uncool, baby

Why you brought me so much pain?

You will play me like a game

Chorus (2x)

Bridge Until End
