Verse 1:

Here we are

Alone again

In your arms again

And it keeps on getting better

Well I don't mean to read your mind

Cuz when I look in your eyes

I can almost see forever

But before you go too far

Before I fall too fast

Baby you should know I need love that's gonna last

You gotta promise to be here

Through the laughter and the tears

Let me know that you're my everyday and everynight

Chorus:

Cuz there's just no other way to love me

Take my heart-take my soul

Baby never let me go

No-there's just no other way to love me

That's the way it should be

If you're gonna fall in love with me

There's just no other way to love me

Verse 2:

Let me show you how much I care

And baby I swear

I'll be right there when you need me

But I gotta know that you'll always be true

That you're gonna see this rule

And give your heart completely

I wanna feel it when we kiss

Believe it when we touch

Baby don't just say you love me

Cuz words are not enough

I wanna see it in your eyes

Believe it deep inside

Gotta know you'll be here

Everyday everynight

Cuz there's just no other way to love me

Take my heart-take my soul

Baby never let me go

No-there's just no other way to love me

That's the way it should be

If you're gonna fall in love with me

There's just no other way to love me

Bridge:

I will never ask for more than a gift to you

(Gonna give my everything)

Give my everything

But I gotta know that your heart is true

Everyday everynight

For the rest of your life

Cuz there's just no other way to love me

Take my heart-take my soul

Baby never let me go

No-there's just no other way to love me

That's the way it should be

If you're gonna fall in love with me

There's just no other way to love me
