Well, you know I hardly speak  
When I do it's just for you  
I haven't said a word in weeks  
'Cause they've been keeping me from you

There's a way where there's a will  
You know I got no need for stairs  
Step out on the window sill  
Fall with me into the air

Here we go, hold on tight and don't let go  
I won't ever let you fall  
I love the night, flying o'er these city lights  
But I love you most of all

And there's something you should know  
Girl you should have died that day  
And you fell reaching for the rose  
Ah baby, I was there to save you

So here we go, hold on tight and don't let go  
I won't ever let you fall  
I love the night, flying o'er these city lights  
But I love you most of all

Here we go, hold on tight and don't let go  
I won't ever let you fall  
I love the night, flying o'er these city lights  
But I love you most of all
