It never turns array for me and you  
No matter how I try to see it through  
Get up at sunset and start again  
Feels like I'm trying to catch the wind

You are the door to which I've lost the keys  
We are a puzzle with a missing piece  
We get up at sunset and start again  
Feels like I'm trying to catch the wind

And I can't carry on living like this  
Talking through glass  
You know that I can't be the one to banish the myths  
Ghosts in your place

So cold to touch you and your heart  
I wouldn't care too much, we fall apart  
Get up at sunset and start again  
Feels like I'm trying to catch the wind

And I can't carry on living like this  
Talking through glass  
You know that I can't be the one to banish the myths  
Ghosts in your place

So I'm left without a choice but walking out  
On the whole I'll never find someone like you  
My head's screaming I believe you  
But my heart is filled with doubt

Don't wanna leave but tell me  
What else can I do, can I do  
Can I do, can I do, can I do

We move like swing sets  
We move like swing sets  
We move like swing sets  
We move like swing sets
