no more...
blind falsity
tears left to see
fear left in me
pain inside my head
no more...
corporate casualties
progress, myths and lies

would you, call upon a book of lies
blame aside, watch you try and rationalize

push walls to the threshold of pain

genetics unmatched in the inhuman acts of capitalist
fucks
cahsing grants, the majority oblivious to pain and
suffering
greed, payback in the form of black disease

would you, fall from grace, desensitize
crawl inside socially fed mass genocide

would you, face the truth or capitalize
falisy, bloodshot cracks in visions eye
