I guess Ill take a walk tonight I know that I cant sleep  
And I wont go to bed at all Id just lie there and weep  
Instead Ill make our favorite spot thats what I think Ill  
do  
I got those smoking cigarettes and drinking coffee  
blues

Smoking cigarettes and drinking coffee all night long  
Wondering how a love so right could suddenly go  
wrong  
Id take the next bus out of town but I gotta be near you  
I got those smoking cigarettes and drinking coffee  
blues

Sitting at the table where I called my babys name  
Wondering where our love went wrong, wondering  
whose to blame  
Listening while the jukebox play the songs that make  
me blue  
Another cup of coffee and a cigarette or two

Smoking cigarettes and drinking coffee all night long  
Wondering how a love so right could suddenly go  
wrong  
Theres a lot of other people know the misery I go  
through  
I got those smoking cigarettes and drinking coffee  
blues
