ooo...

I had a dream that I could fly  
I can feel each moment as time goes by  
We never be too far away  
You would always be here I heard you say

I never thought

ooo...

Thought that it would be our last good bye  
(our last good bye)  
I still can dream

ooo...

That one day love will fall out from the sky  
(ooo... would fall out)

ooo...

Do you still remember, all the time that has gone by  
(ooo... do you you believe)

Do you still believe that, love can fall out from the sky  
ooo...

If from where your standing, you can see the sky above  
I'll be waiting for you, (I'll be waiting) if you still believe  
in love  
(Do you still believe)

Find a way,  
To bring back yesterday  
Find a way to love  
(ooo...)  
I hope we stay  
When tomorrow becomes today  
Love will find a way

(break)lalala...

I'll be waiting for you  
In my heart you are the one  
ah...  
If I cannot find you  
I will look up to the sun

(ooo... do you believe, do you believe)  
If from where your standing  
You can see the sky above  
(ya...)  
I'll be waiting for you, (I'll be waiting) if you still believe  
in love  
(Do you believe, do you, do you believe)

(break)

Do you still remember, all the time that has gone by  
(ooo.. do you remember...)  
Do you still believe that love can fall out from the sky  
(whoo...)  
If from where you're standing, you can see the sky  
above  
(Do you believe)  
I'll be waiting for you, if you still believe in love  
(whoo...)  
La la la la la la la la la la la (wha...)  
La la la la la la la la la la la la la (do you believe)  
La la la la la la la la la la la la la  
La la la la la la la la la la la la la
