good arms, versus bad arms, will win hands down  
they are built to hold and fit  
look how far they go around

you don't need these now that you've found another  
pair  
and the difference astounding, i should expect  
except  
leave the rest at arm's length  
keep your naked flesh under your favorite dress  
and leave the rest at arm's length  
when they reach out, don't touch them, don't touch  
them

i decided this decision some six months ago  
so i'll stick to my guns, but from now on it's war  
i am armed with the past, and the will, and a brick  
i might not want you back, but i want to kill him

and leave the rest at arm's length  
keep your naked flesh under your favorite dress  
and leave the rest at arm's length  
when they reach out, don't touch them, don't touch  
them

and leave the rest at arm's length  
don't brush with him, he might have diseases  
and leave the rest at arm's length  
steer clear of the grasp, girl -- run, run, away

and leave the rest at arm's length  
just roll over boy and don't make me do this  
and leave the rest at arm's length  
i am armed to the teeth and i'm heavy set  
and leave the rest at arm's length  
i'm not ready to see you this happy  
and leave the rest at arm's length  
i'm still in love with you (can't admit it yet)
