"Dimension"

Visit "[Dimension](#)" on MotoLyrics.com

Welcome to your life, don't screw it up;
make it what you want it to be.
I can hardly wait for this world to change.
Never looked back, always headed straight;
look where it's taken me.
I can hardly wait to see this world gone free.
Been down that road a 100 times; now I've found my
way.
I can hardly wait for a happy ending.

????And I, I've finally found myself.
????Somewhere in between.
????Look what life is like when
????Dimension is free.

Millions of people all around
Searching for the glory days.
Do you even know what this life can be?
We're all a star in our own little world,
The spotlight is where we like to be.
Isn't it great to live this lie today?
This is the place where everyone goes,
But it's not where you'll find me.
Finally it's time where Dimension's free.

????And I, I've finally found myself.
????Somewhere in between.
????Look what life is like when
????Dimension is free.

????????Dimension is free...

????And I, I've finally found myself.
????Somewhere in between.
????Look what life is like when
????Dimension is free.
