"Faultbreaker"

Visit "[Faultbreaker](#)" on MotoLyrics.com

It's only been 3 days since I have seen you here
around this place.
I can't figure out, and I can't think about the distance,
the distance between me and you...
If it were the last day and the last time would you ever
calm down!?
Can I talk about, if I forget about? All the things you do?

????It's not my fault you came here today.
????You're going to fade away.
????I don't really care who's to blame,
????There's nothing to say anyways.
????It's not my fault you came here today.
????You're going to fade away.
????It's not my fault, it's not my fault,
????It's not my fault, it's all your fault.

????????????????????It's your fault you got caught in the
wave.
????????????????????It's your fault you're dirty today.
????????????????????It's your fault, a failure to save.
????????????????????It's your fault in every way.
????????????????????Everyday, in every way.
????????????????????It's your fault today.

It's about time this came crashing down like this crack
in the wall: A stereo inflate.
Your minds on fire, keep this morning clean! Not sure
what to do, but I need my room?
Finding clearly, a big mistake. You can't help the way
things are.
Your biggest desire fell from the tree, and it smashed
you open in two?

????It's not my fault you came here today.
????You're going to fade away.
????I don't really care who's to blame,
????There's nothing to say anyways.
????It's not my fault you came here today.
????You're going to fade away.
????It's not my fault, it's not my fault,

????It's not my fault, it's all your fault.

????????????????It's your fault you got caught in the wave.

????????????????It's your fault you're dirty today.

????????????????It's your fault, a failure to save.

????????????????It's your fault in every way.

????????????????Everyday, in every way.

????????????????It's your fault today.

It's you, you're tripping on your own faultline.

It's you, you're tripping on your own faultline.

It's you, you're tripping on your own faultline.

It's you, you're tripping on your own faultline.

?your own faultline.
