something to say to ya,
sendin it streight out to ya,
i've been thinkin bout you and me,

when they get down to it,
its got a good song to it,
we go together so easily,

(bridge)

tell me how do you feel,
now will you come my way,
you gotta know thats its for real,
im on ur fantisy,

(chorus)

you can call me crazy,
you could try to save me,
but ill keep on coming back to you,

nothing now can panic,
might be one of plenty,
but ill keep on coming back to you,

love is a fasination,
might spend a lifetime chasin,
ill need to find out ur not the only one,
maybie to you im drivn,
if its a dream im livin,
i need you to tell me whats going on,

(bridge)

tell me how do you feel,
coz i can read your mind,
if you want me to make it reall,
im on your any time,

(chorus)

you could call me crazy,
you could try to save me ,
but ill keep on coming back to you,

nothing now can panic,
ill be one of plenty,
but ill keep on coming back to you,
ill just keep on coming back to you,

your the one to change my life,
no-one else can do,
no-one else but you,
your everything im looking for,
and i dont need to look no further,

(back-up)
keep on coming back,
keep on coming back,
keep on coming back to you,
keep on coming back,
keep on coming back,
keep on coming back to you,

see you can call me crazy,
try to save me,
said ill keep on coming back to you,
said ill keep on coming,
yeah yeah,

said ill keep on coming back,
coming back to you,
keep on coming
