Deep in Denialville
Tryin' a' fight the way I feel
I go jello when you smile
I start blushin' - my head rushin'
If you stand too close to me
I might melt down from the heat
If ya' look my way one more time
I'm gonna go out of my mind
Whatever you do...

Chorus:

Don't even think about it!
Don't go and get me started!
Don't you dare drive me crazy!
Don't do that to me baby!
You stop me in my tracks
My heart pumpin' to the max
I'm such a sucker for your eyes
They permanently paralyze
What ever you do...

(Chorus)

(Whatever you do, don't do that to me)
You got my heart under attack
You give me shivers down my back
D'ya have to walk the way you do?
I get weak just watchin' you
Whatever you do...

(Chorus)

Don't do that - Don't do that
