You're sat on your own, you hear the phone  
Your mother calls you  
Make a deal, you shake on it  
But you know it'll fall through  
At the scene you're nice and clean  
Everything's sprucey  
Up the bar you grab a jar and then bump into Livesey

Well let's get some Gianluca, better phone The Juggler  
Oh, you'd better phone The Juggler  
Let's get some Gianluca, better phone The Juggler

There's no going back from here  
There's no going back from here

Well it's getting late, you're in a state  
So you have a sing song  
There sits Jim he's sipping Pimms with the one and only  
Tiny Big Bum  
They ring the bell, they ask politely  
Can I get a move on?  
I play my card, I'm already barred so I tell 'em, "Do one"

Let's get some Gianluca, better phone The Juggler  
Oh, you'd better phone The Juggler  
Let's get some Gianluca, better phone The Juggler

There's no going back from here  
There's no going back from here

I say...

It's the sound of The Twang in the mix  
From the city to the sticks

Well I was straight out a cloudy bedroom  
Into the cloudy club there's no headroom  
Stood in the corner sucking on a Benson  
Mate says "Twos?" and I tell him "Buy some"  
DJ drops another classic

Problem is that we're all stood static  
Danny hitting the dancefloor changing the vibe  
Had a little fella now he's come alive

Let your body move to the cloudy room  
Let your body groove to the cloudy room

And I swear your girl is giving the eye  
I swear that girl is giving the eye  
(Let your body move to the cloudy room)  
(Let your body groove to the cloudy room)  
(Let your body move)  
There's no time to ask the question, no time to ask the question  
What, when, how or why?

So I was straight out of one zone into another  
Little bit of Burberry but there ain't no bother  
Mine's a Marlon, yours a lager  
Want some of what that man just sold yer  
DJ drops yet another classic  
I look around now everybody's 'avin it  
Bass almost simian I clap to the drum  
My body keeps rocking to the...  
Ba da bum, ba da bum bum, ba da bum  
Ba da bum bum, ba da bum bum,  
Ba da bum bum, a ba ba ba ba ba ba...

Let your body move to the cloudy room  
Let your body groove to the cloudy room  
Let your body move  
And I swear your girl is giving the eye  
I swear your girl is giving the eye

(Let your body move to the Cloudy Room)  
(Let your body groove to the Cloudy Room)  
There's no time to ask the question, no time to ask the question  
Cos I swear your girl is giving the eye  
I swear your girl is giving the eye  
What, when, how or why?

Let's just fly  
Let's just fly, fly, fly, fly, fly  
Let's just fly...
