Yeah I feel better today  
I think that shit was just a phase  
My whole outlook's changed  
I've even stopped feeling strange  
I can understand why you was mad now  
Why should you be the one who has to lose out?  
Just cos I'm on one  
I said "I'm always gonna have shit going on"

I feel so much better today  
I've chased the bad things away

I was glad I turned the corner man  
Cos I was sick of feeling rough  
I was getting paranoid about the silliest of stuff  
I was at me wits' end pulling my hair out  
I'd just about had enough  
And all I needed was a hug and that little bit of love

I feel so much better today  
I've chased the bad things away

And I really do feel so much better  
I really do feel so much better

And I gotta find my phone to tell ya  
Maybe even write you a love letter  
Ah, either way I've gotta tell ya  
Ah, either way I've gotta tell ya

I feel so much better today  
I've chased the bad things away

And yeah I really do feel better and it almost don?t feel  
right  
So I'm gonna store this thought away for a bit  
Cos no saying there's gonna be harder times  
Cos it's always your favourite top you blim  
But think man it could have been your skin  
And I think that we might just be OK  
But what does it matter either way?

Cos she's the one that's always there  
Yeah she's the one that always cares  
Yeah she's the one that's always there  
Cos you're the one that always cares  
I love ya  
And I gotta find my phone to tell 'er  
Ahhh, maybe even write her a love letter

Ahh, either way I've gotta tell ya  
Ah, either way I've gotta tell ya  
Ah, either way I've gotta tell ya,  
Either way I've gotta say  
Either way, either way...
