I think we're lost, don't worry  
I've been here before  
I'm sure I thought I knew the way  
Out of here yesterday  
Dove cuesto, mi dulce?  
Your driver called, it's time to go-  
Your driver's waiting for you-

And I caught a fever  
A holy fire-  
Til I was crawling on the ceiling  
Come out of your hole  
I know you know-  
You know I know-  
I wanna go-

Such a pretty thing, i've never seen  
Someone so perfectly deceive-  
I loved her smile-  
And her beguiling way with me  
She smelled exciting, I wanted some-  
Your drivers' gone-  
Like everybody-

And that's why I need ya-  
To catch on fire-  
I want you to burn me til I feel it-  
I know you know which way to go-  
I wantcha to show me  
So I can steal it-  
Where should we go?  
Where should we go?  
I knwo you know that I'm  
Gonna need it  
I know you know which way to go-  
I know you know-  
I wanna go
