In this or any world
There is no one as great as you
In this or any life
There won't be anyone better than you

Precious girl
I just wanted you to know

You are all for me
You are all for me
I'm taking a decision
That won't change anything

It was a pleasure
Just to know you in my life
I was very fortunate
For being with you a time

I never forgot what I said
You'll always be the best

You are all for me
You are all for me
I have taken a decision
Goodbye Mon amour

You were all for me
You were all for me
You were all for me
You were all for me

You were all for me
You were all for me
You were all for me
You were all for me

It's ok
It's not so bad
