It's impossible to erase her
Her pearly teeth and blonde hair
Her smell floats in the air
Neither a hundred of roses can equal her

She shines with her own light
How could something have that shine?
How come I see an angel If I don't die?
And I haven't reached the sky

I fell in love tonight
You don't have to be if you don't want
But don't make me feel I can't
With you I delight

All of her is a bless
I like her, I got to confess
Her beauty is out of all range
If I have to do it, I will change

Look at her she is a muse
I had a heart without use
She's the kind of girl I wanted to meet
I think my heart has started to beat

I fell in love tonight
You don't have to be if you don't want
But don't make me feel I can't
With you I delight

This feeling has started to grow
Will she say yes or no?
If I never try then I'll never know

This angel fell of sky
At least I got to try
So much time in exile
Now it's time to face the life

I fell in love tonight
You don't have to be if you don't want

But don't make me feel I can't
With you I delight
