What sun do you talk about with all your friends
What light blinds from the lights around the band
Moonlight is my fortay from all that shines
Darkness is my path through the brightness

Morning is the false impression saying IÃfÃ¢, -Ã™ m
out of questions
But baby just remeber IÃfÃ¢, -Ã™ m always here
In the shadows of the night sky
My love will never die

And I
See You
But I canÃfÃ¢, -Ã™ t remeber
And I
Need You
And IÃfÃ¢, -Ã™ m waiting below

WhatÃfÃ¢, -Ã™ s the word that controls your mind
Can make you happy and bright your eyes
What kind of relation may love the seperation
All the lights are shining on you

YouÃfÃ¢, -Ã™ re a star in the dark sky
YouÃfÃ¢, -Ã™ re just a light on a dark dark road
Light is blocked out

And I
See You
But I canÃfÃ¢, -Ã™ t remeber
And I
Need You
And IÃfÃ¢, -Ã™ m waiting below
