BURN

you're living for one thing
did you come this far to let life live you
and betray your heart disconnected...by the doubt in
your head
You've been scarred by failure but never again

In this life you only get one chance at one thing trust in
who you are
and who you're becoming cus when you thought life
had come undone
you crush all those who spit in your face cus your time
has

your time has come
your time has come (your time has come)
time has come for you to burn

Time has come for you
the time for all of us to
the time has come for you
to burn everyone and everything
that said you were nothing
(x2)

They said you were nothing til they made you who
you are destroy those lies cus you've earned these
scars
Disrespected...time after time friend lied to and
stepped on
but never again

only you and you alone choose your path in life
you better fight cus there's nowhere to hide
no escape and nowhere to run
no turning back now cus your time has

your time has come
your time has come (your time has come)
time has come for you to burn

time has come for you
The time has come for all of us to
The time has come for you
to burn everyone and everything
that said you where nothing down

burn them to the ground
