Pick me up so we can fall back to zero
A shattered wall no longer stands
Population too much demand
And theres no one left to fuck but us
Nothing left
Theres nothing left
Nothing left
Pick me up so we can fall back to zero
A shattered wall no longer stands
Population too much demand
And theres no one left to fuck but us
Nothing left
Theres nothing left
Theres nothing left
No second chance for us
Theres nothing left
No more control
Theres nothing left
No more control no more second chances
No more control
