Rot, break, steal, take  
Life valued as less  
Life deceived and oppressed  
Life valued

Power figure  
Power failure  
Power figure  
Power failure

Rot, break, steal, take

Power figure  
Power failure  
Power figure  
Power failure

Ro, break, steal, take

Take what makes me less a man  
With what makes me who I am  
I swear I'd force you down  
If the power was in my hands

Life valued as less  
Your life deceived and oppressed  
Life valued

Power figure  
Power failure  
Power figure  
Power failure

Rot, break, steal, take

We will force you down  
We will force you down  
We will force you down  
We will force you down
