Hey hey - Who programmed  
Hey hey hey - Your fucking life?  
Hey hey - Who programmed  
Hey hey hey - Your life?

I am my own, my own control  
I am my own, my own control

Military machine inside my head  
Step by step, count the brain dead  
Step by step, day by day, like a fucking death wish train  
Into my head  
Into my brain  
Brain dead  
Brain dead  
What is this silence?  
Who programmed your life?  
Now use your goddamn voice

Hey hey - Who programmed  
Hey hey hey - Your fucking life?  
Hey hey - Who programmed  
Hey hey hey - Your life?

I am my own, my own control  
I am my own, my own control

What is this silence?  
Who programmed your life?  
Now use your goddamn voice
