"Too Little Too Late"

I pulled the knife from your back
Back fucking stabbed through my chest
I pulled the knife from your back
Back fucking stabbed right through my chest

My hands are in the air
The tears you cried
Die quick with selfishness
The tears you cried
Die quick with selfishness
Selfishness

Too little, too late
The tears you cried
Die quick with selfishness
The tears you cried
Die quick with selfishness
I pulled the knife from your back
Back fucking stabbed right through my chest
I pulled the knife from your back
Back fucking stabbed right through my chest
Too little, too late
Too late

Learn from and grow
I'm sorry I let you go
But now you're gone
Learn from and grow
I'm sorry I let you go
But now your dead
Learn from and grow
