I hold you in my shins
I won't break
Your pain
This is much better than me
Okay?
Fear...
Looks like me
Nothing ever works
Even if you
Use all you got
This is a state of shock
Fear...
Looks like me
Oh
I don't think anything
You cover
My spine
Hold my face, shoot me and die
Fear...
Looks like me
Up to your face
Up to your choice
Up through your hands
Give me what I want (up to your face)
And all I can think about
Is choosing it
I'm losing it
I hurt
Look at me run away
Stop talking
You hurt me
And I'm not crying
Dry
