Search the world for something for you
(For something for you)
Nothing's sweet enough
To kiss me like you do
Built the walls in your front door
So you know how to leave
Give your love
You know how to breathe
Feel your lips and tongue
So you know how to fly
I give you life
So I can never die
Something so much like heaven
Nothing's so much like rain
You have everything
Give your hands
So they know how to maim
So it knows how to pray
You are right
You were right
The sweetest
