Like an old man in a dress  
Treat me like a 12 year old man  
No more hearts

Don't know what 20 is  
Don't know where the tree stands  
Only follow these hands

At midnight I reach for the blind  
Toward your head, but don't touch it  
I wish I had but when I'm dead  
At midnight I hit your song, it sings again

Don't know what age is  
Don't know where the tree stands  
I only follow these hands

I couldn't make you crazy if I tried  
We've been swinging around the tree  
For how long now

Maybe she wants to be cared for  
Stay home a month here, a month there

Maybe take to their open roads  
Maybe take to their open roads  
Maybe take to their open roads

At the marriage, to the marriage  
At the marriage tree
