I don't want this
I wanted you to reel inside this dream
There's something left of our world
I hold it

Know what danger is?
Come in dangerous

Make these people go away
Their coats are on my bed
And they're hanging hard
Talking about Jesus babies
I lose it

Know what danger is?
'Cause I'm in danger

You live on one word, one word
What's the matter with you?
You get excited to go

I wanted this
I wanted you to reel around the room
The room is what is left of our world
I love you

Know what danger is
Can be danger's eyes

I'm so human
My words reel around it

You can't love anything
As much as when it's dying in your head
You're always dead in mine
[Unverified] 'round the room
You keep your word you tear it, tell it
