[Tech talking]

Yeah man...

Niggaz think it's all peaches and cream

Shit's hard right now man, it's real shit..

Me and my road dogs man on this one

We stay constantly dirty, grittin for our shit

y'know what I'm sizzlin?

[Chorus] - 2X

Ain't nobody every gave me nothin, I'm on my own
I was down and dirty when I was young but now I'm
grown

And I continue to struggle ya heard me

Me and my niggaz in the course and we constantly
dirty

[Big Scoob]

Ain't nobody ever gave me a thang in my lifetime

So I'm on my own, standin strong, holdin chrome

Disrespect my Villians, get 'em gone, early mo'n

On the co'n, get my hustle on

I stays dirty - chippin, choppin, flippin birdies

I'm pushin' thirty, vision clear, I'm never blurry

Plottin plans, strategic mission, I'm on my toes

I stays with fam my mans, to shake these fuckin foes

Lord knows all the different situations, trials and
tribulations

Aggravations that a nigga's facin

I get complacent that's my ass, I'm a memory

They spillin liquor on the curb when they mention me

But they're ain't no fear in me, get it how you live

That's if you hearing me then dug down and dig

Lace your boots man, prepare for the struggle

Stay in them trenches, hella dirty, grit and hustle

[Chorus] - 2X

[Bakarii]

Nigga...

I got a pocket full of G's, I'm constantly servin

My Nina knock him to his knees, I'm constantly dirty

Super Villian, check my powers, I get the early worm
Chop with choppers, lose the coppers with just a single
turn
True to life, through the mic, they got me tellin stories
With the fame and the lights, I feed my territory
Gutter livin with precision, them busters know they
phony
Flip my profit keep on rockin it for my dead homies
They wanna follow my shadow and waddle in the mud
It's the infallible cannibal with the dirty gloves
"Absolute" with this "Power" they call me realistic
Savage Bakarii still comin up off that fetal living
Givin my life, to the night, on the dirty
All my might, when it's right, then I strike on them early
Twisted like livin dirty, super savage, I'm out to get that
bread
Gutter livin; that's my habit until I rest my head

[Chorus] - 2X

[T-Will]

Which one of y'all can I holla at when it's time to pay
rent?
And who you think's gonna loan me money when my
last bread is spent?
I got an even shorter list of people to call on when I'm in
a pinch
So I might just walk around with my jaws clenched like
The Grinch
I'm, headed for trouble cuz I can't sit here and struggle
How do I bubble if I don't get out and hustle?
I'm in the wind put the spud on my muzzle
Put on my hood, grab my gloves and my shovel
Tie up my boots because the mud it gets thick
And hit a lick so quick, they think I love this shit
It's real life gutter livin, nigga comin straight from the
brain
Some handle the pressure and others break from the
pain
It's been fifteen other damnedest and ain't nothin
changed but the weather
Times' still gettin harder and niggaz can't stick
together
All through my teens, my twenties, even when I'm thirty
T-Will'll be gritty, grimey, constantly dirty...

[Chorus] - 2X

[Tech N9ne]

Yo!

Ain't nobody gave me nothin but God

He gave me talent, these civilians perpetrating the
fraud
That point is valid, got niggaz sayin they made me
The only thing that was made was music cuz nobody
ever properly paid me
Don't get it twisted, that little money was appreciated
It got me out there again, glad that's alleviated
But the nigga that say I didn't have a followin
before Mitchell Bade hit the streets must be inebriated
Soon as Mitch hit, it hit!
Because we some talented motherfuckers but they still
talk shit
Keep that shit low black - that shit be gettin back
to a nigga that will fight for you at the drop of a hat
I tried to tell 'em, let me do this here
They talkin like they don't want Nina gettin through this
year
I'm still strugglin hard, how can niggaz disregard? I'm
thirty!
Watch what you say when you speak to little birdies
I'm constantly dirty...

[Chorus] - 2X

Constantly dirty.. constantly dirty.. [4x]

[Chorus] - 1X
