(I still believe in God, but God no longer believes in me)  
There's a crystal view from my window  
And I can see years to come  
I live for the burn and the sting of pleasure  
I live for the sword, the steel, and the gun  
I can tear down the walls, storm them barricades  
Run to the place where the frightened crawl  
Desire lurks beyond good and evil  
So dance on the graves where the hammer falls

(Chorus)  
Over this land  
All over this wasteland  
Over this land  
All over this wasteland

You can touch, but please keep your distance  
You're innocent and pure and with no shame  
The spirit is willing, and the flesh is great  
Your teasing your torment with the pleasure of pain

(Chorus)

Heaven and Hell, I know them well  
But I haven't yet made my choice  
I'm feeling dead 'cause I'm shouting loud  
And NO ONE can hear my voice  
Walking the tightwire, can't look down  
Strung out high, above you all  
Faithful wind blows through this land  
Howls my name, Hell is my fall.

(chorus)  
(spooky music)
