In the quiet of evening I start to drift away  
Imagining a place where you'll be starting off your day  
I fight the distance with a picture in my head  
But I don't know when I'll see you, I guess I'll have to  
dream instead  
You're so far away  
If I could be I'd be with you, even if for just one day,  
'cos if  
Chorus:  
I close my eyes and dream on, I can fool myself in  
sound and vision  
Like a satellite reaching out through the night  
I could almost be touching you  
And when we're talking long distance on the phone  
You know it makes me feel like I'm not so alone  
The situation never causes me pain  
The communication that we have is on another plane  
All the waiting makes me stronger, and the time  
between us flies  
Whenever - chorus  
(Solo)  
If I could be I'd be with you, even if for just one day  
Those miles between us, they just start fading away  
Whenever - chorus  
Like a satellite, like a satellite
