Twenty-four hours of every day

I'd walk on glass just to hear you say

Gettin' it on is like a drug to me

I want you baby, can't you see

I'm crashed and I'm crushed and I'm stuck on you

I'd do anything that you want me to

I'd crawl on my knees just to get to you

I close my eyes and girl it's true

On a psychedelic space machine, galactic sugar high

Like a caffeinated satellite gone way past 99

Come on, be my

21st century girl, all outrageous, quite contagious

21st century, you got solar fire

21st century girl, sweet romancer, cosmic dancer

21st century sha la la la girl

Kiss this, you're blowin' my mind

Never say never, but I'm takin' my time

Girl to the world from the A to the Z

I fall for you so easily

Catch my breath cause I know too well

That I just can't control myself

Realize we synchronize

It's only when I close my eyes

On a psychedelic space machine, galactic sugar high

Like a caffeinated satellite gone way past 99

Come on, be my

21st century girl, all outrageous, quite contagious

21st century, you got solar fire

21st century girl, sweet romancer, cosmic dancer

21st century, she's high on flying

Flying, flying

You take me up, you set me free

No time to breathe, just zero G

High, still flying, no gravity

She's flying

On a psychedelic space machine, galactic sugar high

Like a caffeinated satellite gone way past 99

Come on, be my

21st century girl, all outrageous, quite contagious

21st century, you got solar fire

21st century girl, sweet romancer, cosmic dancer

21st century, high on flying

21st century, sha la la la girl

She's a 21st century, sha la la la girl

21st century, sha la la la girl

She's a 21st century sha la la la girl
